

Incident Command System Operations Section Chief

Presented by: DYNAMIC INCIDENT MANAGEMENT (Pty) Ltd

LG SETA Accredited

Endorsed by the South African Incident Command System Working Team (SA ICS), FEMA Based

This course is designed to provide government and private industry emergency management and response personnel with an understanding of the duties, responsibilities, and capabilities of an effective Operations Section Chief (OSC) on an Incident Management Team on all levels of incidents.

These responsibilities fall into two categories:

1. Response to the incident and command needs of the incident; and
2. Effectively fulfilling the position responsibilities of an Incident Commander on an ICS Incident Management Team.

Modules include:

- Role & Responsibilities of the OSC
- Responding to Command's Direction
- Determine resource requirements
- Operational Risk Assessment Process
- Provides Tactical Assignments
- Unit exercises and simulation
- Interactions with IMT members
- Manage On-scene Operations
- Documenting actions
- Planning Cycle with meetings & briefings
- Ensure safety and welfare of Operations Section
- Supervises & configure section in branches, divisions, groups & units to support operations
